### **DETAILED ACTION**

Claims 1-25 are pending in this application.

#### ***Inventorship***

1. In view of the papers filed October 15, 2001, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by adding the following inventors to the application: Douglas Bryan Cole and Katherine Denise Stahl.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.

#### ***Action Summary***

2. The rejection of claim 9 under 35 U.S.C. 112, second paragraph is hereby expressly withdrawn.
3. The rejection of claims 1-10, 13, 19 and 20 under 35 U.S.C. 102(b) is being maintained for the reasons stated in the previous office action.
4. Claims 11, 12, 14, 15, 17, 18, 21, 22, 24 and 25 are allowable.

#### ***Response to Arguments***

5. Applicant's arguments filed September 24, 2001 have been fully considered but they are not persuasive.

Applicants argue that the claimed invention is a wetting composition in conjunction with a triggerable composition. It is the position of the examiner that it is unclear what is meant by a "triggerable composition" it is not clearly defined in the specification. Therefore, examiner maintains rejection under 35 U.S.C. 102(b). Examiner would like to point out example 8 in table 2, which does not disclose an organic solvent.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 1-13, 19, and 20 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The phrase "triggerable composition" is not defined in the specification.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-13, 19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear to the examiner what is meant by a "triggerable composition" it is not clearly defined in the specification.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 23 is rejected under 35 U.S.C. 102(b) as being anticipated by Potini et al. (US 5,607,908).

Potini teaches in Table I a composition comprising 0.70% sodium chloride (activating agent), 0.10% polyethylene glycol (organic solvent), 0.050% glycerin (preservative), along with other components and water up to 100%.

***Conclusion***

9. Claims 1-10, 13, 16, 19, 20 and 23 stand rejected. Claims 11, 12, 14, 15, 17, 18, 21, 22, 24 and 25 are allowable.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
